## GARLIC & ROSES

By DAFFY DILL

"Ratpny-walphy" Utley, author of "Saga of the Desert" and erstwhile staff cartoonist blew through town last week-end. During his wanderings he saw Lester Hurt—and of all things, he caught Gene Radcliffe in East Marlboro (Maryland) working! Gene's friends all say that isn't so.

Andy Butler was more or less Sunday night. When last he and "Red" Stewart, the "school-marm," were on way to an ice cream parlor. Andy, we gather was bothered internal fires.

Bill Chance blew into town last week also and took charge of Bill Hayden's social activities. Did O. K. too, as observed on Thursday night.

Smith, what do you mean by tell such tales. Why surely you mean to tell us that "Shark-Jones is going to buy that little Greer girl a pup. A constant reminder, eh what?"

"True Blue" Harold Puckett seemed a bit faded on last Thursday night. Maybe a trip to Magnolia would restore some of that color, Harold.

Jimmie Andres returned to the land of Long and rice Saturday night. His friends miss him no end.

Homesick: J. C. Batsel certainly has a hankering for Muhlenberg county—and especially Greenville. Has L. Sherril been down yet, J. C.?

Pete "Cradle-robbler" Steven's came out of his hiding place and went to Mammoth Cave Friday to see Mildred Emmick. Pete as you probably know, has been hibernating near Beaver Dam since the first of June.

"Red" Cartwright regrets the fact he can't move to West Hall. He started rushing that dark Brooks girl he just can't get away and so many trips during the hot weather kinda gets him down.

Attention! All persons desiring to enter the new classes organized on Hill see Professor Arthur, Red, Pt-water, Crowley. Prof. Crowley holds classes 5 nights a week in the village. Crowley is professor of mathematics, poker, crapshooting, back-jack, keno, etc. Majors are: Butler, Ball, Baker, Rutledge, Hen and little tock Triplett. Prof. Crowley plans a meeting tonight. Majors must attend, minors expected and visitors (with as much as two bids) invited.

Rumor has it that old acquaintances are about to be renewed this week-end. T. E. Jones, "the promising young man," and Glorine Dean are going to get together again—which case those often discussed bells may ring out.

And while on the subject of bells, rang for Russ McEndree and Green girl Thursday night. They didn't intend to announce it, the bride's sister let the cat out the bag right in the middle of the entertainment for the "bride-elect." Dill wishes you the best of luck.

Was at Mammoth Cave recently and went down to the ferry. Ran across an old timer who pointed to a big rock a piece out in the river and said, "Son, see that there rock. I been here 65 years and that's the second time I ever seen these yere waters low enough for that rock to tick out." It was about ten inches

## DR. HARMAN SUCCEEDS McMURTRY IN CLASS

For his last talk to the student class of the State Street Methodist Church Prof. McMurry discussed Drummond's book "The Greatest Thing in the World." The book, which is based on the thirteenth chapter of I. Corinthians states the greatest thing is "Love," which was well brought out by Prof. McMurry.

Sunday, July 5, Dr. J. L. Harman, president of the Business University, will become the teacher of the class. A large attendance is expected to hear his initial address.

## URGE CAUTION ON FOURTH OF JULY

Annual Outing Sees Increasing Number of Accidents

Careful research has revealed that the majority of accidents taking place each Independence Day originate from carelessness. The majority of fatalities and injuries spring from five causes each Fourth of July, namely, powder burns (from fireworks), drowning, traffic accidents, ivy poisoning and sunburn.

More than 4,290 Americans have been killed by fireworks during the past 30 years. These fatalities occurred chiefly on the Fourth, and more than equal the number of our Colonists who were killed during the entire Revolutionary War.

Speaking of automobile accidents in connection with excursionists and vacationing parties, it is urged that in driving to or from picnic grounds or beaches, motorists drive at a reasonable, sustained speed, keeping to the right of the road always, exercising special care in driving over hilltops and around curves where an oncoming car may be hidden.

It is important to water fans that all pools and swimming places, from the rural "swimming hole" to the most elaborate bathing pools and beach resorts, should be under the strictest possible vigilance at this holiday time, especially where picnic groups or large crowds are bathing.

Severe sunburn can be dangerous as well as exceedingly painful. Gradual exposure to the sun's rays, increasing the length of time exposed each day, is the best protection. Rays from the sun sometimes penetrate heavy clouds, even while the bather is unaware that he is being burned, and rays deflected from water are especially potent. Applications of olive oil, cocoa butter, or some good burn ointment before exposure is a means of preventing serious burns.

An unbelievable number of persons are poisoned by ivy and sumac each Fourth. When contact with them is known, wash thoroughly with soap and warm water four or five times and then with alcohol if available. Where the poison has developed, apply calamine lotion purchased from any drug store. Have the druggist add enough carbolic acid to make a two per cent solution.

## Tennis Tourney for Girls Is Being Planned

A committee composed of Florence Mutchler, Ruth Weldon and Sue Harrison is working on plans for a Women's Tennis Tournament. The exact date for the tournament has not been selected, but registration for the tournament can be made with any of the above named committee or at the Warren County Hardware store, with the date of the drawing to be announced later.

Students at both Western and the Business University are extended an invitation to enter the tournament as well as local girls. If enough entrants register to warrant the playing of doubles, a doubles tournament will also be played. Prizes will go to the winner and runner-up, with the winner of the singles event gaining the title of Women's City Tennis Champion.

### AYERS DRAWS FIRST BLOOD IN TOURNEY

Play Is Under Way In City Tennis Meet Today At Western

Play in the City Tennis Tournament was started Wednesday morning on the Western courts on the Russellville road with Shirley Ayers, present title holder, taking Teddy Hornback in three sets. Hornback took the first set 7-5, and Ayers came back to win the last two by scores of 6-2 and 6-3.

The win in his first match practically leaves Ayers in the clear until the semi-finals. His next round opponent will be the winner of the Slaughter-Cherry match, and should be a set-up. The stiffest opposition furnished Ayers probably will be by the winner of the Sam-Allen-Burton match.

Bob Sanders defeated Johnnie Greer in another match played yesterday morning in straight sets by 7-5 and 6-1. For his next round opponent Sanders will meet the winner of the Siddens-Daniels match.

### GARLIC AND ROSES

(Continued from Page One)

above the surface.

Saturday marks the one hundred and sixtieth "grand and glorious" Fourth for this nation of ours. Western students appreciate it double as no classes are to be met on that day.

July the Fourth also marks the time at which the major league pennant winners are to be predicted. Somehow yours truly doesn't have much faith in that system. Time will tell.

J. C. Willard, on his last visit, didn't seem to miss Cantrell even a little bit. Now was that the human thing to do?

Sue Farley is a genetics student from way back. She says "that instructor is cute, but I'm gonna have to talk to him."

Who was the girl that Willis from Transy saw fit to rush Friday night?

Kay Niman has a lease on the steps leading from West Hall to

the parking space over at one side.

From what Dill saw Sunday night—Bill Craig owes exactly ten cents a line for his write-up last week as results were exceedingly good, verra verra good in fact.

Did "Happy" Hopkins go home at all the night of the dance? June, his roommate didn't see him until the next day.

"I'm puttin' all my eggs in one basket."

Earl Butcher and Joe Preston gave the girls a "break" Saturday night. They played pool, tiz said.

Between fadings, "Big Splash" Puckett is becoming even more docile—he disappears every week-end now. Not another invitational dame at Hoptown, was it "Splash."

Does a Mrs. Harry Shay exist? Mr. F. S. of 111 Fifth Avenue, N. Y.,

wonders—and by the way Harry how is the gal you and Ward rush getting along?

Congrats to Herb Hatfield—prof at Greenwood next year.

Bob Tucker, Shelby county farmer romeo, heads back to town tomorrow nite. Jacque?

Heard four times in twenty minutes at popular hill-top resort—"Who is the be-oot-iful brunette with the wonderful eyes?" Boys will be boys.

T'was with an audible gnashing of teeth that Anna Spain, "th Hoptown tom-boy" bemoaned the fact that "after studying she only made ninety-three on that test."

Maybe things like that are what run up the suicide rate among college students.

That's all folks!

## BLIND STUDENT IS HEAD LAW CLASSES

Perfect Attendance Record  
Is Also Noted

Marcus Roberson, 22-year-old blind law student, has been graduated from the San Antonio, Texas, Public School of Law with the highest average grade in his class.

One of thirty-nine to receive diplomas after the three-year course, Roberson also hung up a perfect attendance record. Graduates of the school are entitled to practice law in Texas.

Young Roberson lost his sight in an accidental shooting seven years

ago, but he did not lose his ambition to become an attorney.

A state-paid reader read Roberson's textbook lessons to him during the three years, but his proficiency as a student was greatly aided by his ability to take copious notes in Braille as he listened to lectures by faculty members.

He learned Braille at the Texas School for the Blind at Austin, where he completed his high school education.

## MATTHEWS IS FETED AT FAREWELL PICNIC SUNDAY BY FACULTY

The members of the summer school faculty of the Training School gave a farewell picnic Sunday evening for W. L. Matthews, director of the school, who will leave Thursday for Harvard University

for the remainder of the summer. The picnic was given at "The Thicket," the country home of Mr. and Mrs. Herman Lowe on Barren river.

Swimming was enjoyed during the evening and a delightful picnic supper was served.

Those present were: Mr. and Mrs. W. L. Matthews, Mr. and Mrs. Hayward Brown, Mr. and Mrs. N. L. Ross, Mr. and Mrs. H. R. Matthews, Mr. and Mrs. W. Ross McGehee, Mr. and Mrs. Walter Naibach, Mr. and Mrs. Herman Lowe, Mrs. O. G. Byrn, Mrs. Nell Gooch Travelstead, Mrs. Carolyn Seward, and Misses Geraldine Stephan, Susie Pate, Sue Howard, Polly McClure, Ruth Driskill, Louise Redd, Mary Frances Eaton, Louise Christie, Ethel Clark, Sara Taylor, Magnolia Scoville, Inez Curry, Kate Whallen, Nancy Reeder and Lavinia Hunter, and Frank Lawrence.

Greensburg last week-end, I hear, by the name of Bures and Tucker . . . And, Mr. Willard, whatever became of the little Cantrell girl of last semester . . . Russell McHendree finally married his Logan county girl, but not on Sunday as was planned, 'cause he 'foxed' us and did it on Thursday, if reports are correct . . . Nevelyn Rudell is wearing a diamond ring on "that finger" of her left hand—Is it that leap-year traditions are running true to form or did Bill Payne break over and ask her? . . . "A classic,"

said some poor guy once, 'is that which is enjoyed by the minority'—Ye know, I've always wanted to be a classical writer, and it looks, according to that, that I have succeeded.

Pardon me, folks, but this is that Prowler at "it" again . . . I could complain about the weather for you, but all of you know that it has been hot without my telling . . . June Cloy said that when it cooled off a little he was going to step over to Centertown and get that high school ring of his. Frank Sullivan made a wager of four dollar that he would not get it . . . The B. U. party at Beech Bend Saturday night, seemed to be a great big success . . . Speaking of Saturday night—our very good friend, Jimmie Anders, succeeded in getting away—Little Hildegard just could not stand to see him board his train to leave; so she left the station about a half an hour before train time . . . The hands of fate stuck their fingers in Frank Sullivan's eyes until he couldn't meet that certain little B. U. girl until about a week before he was ready to pull stakes from this man's town . . . I wasn't told, I only heard, that Charlie White and Ruth Shaw are calling their affair "just a good hearty friendship"—Their being together is not love now as they had us thinking all along—Just how long it has been as it is isn't known by the Prowler . . . Oh yes, Charlie, when you and Ann Beasley get ready to have another round like the one just before the Hoptown Cotillion dance why don't you get some place where you won't disturb the whole hill??? . . . And is that by any chance the reason for the above mentioned split? . . . Earnestine Asbury, Carlyon Beadles, Sue Vick, Little Unknown girl in Hoptown, Isabel Ross, and many other such attractive cuties Charlie Stahl has met and dated in his time, all of which have been forgotten or almost so—Now who is it?—You have seen them together I know . . . Her name is Hackney, little blue-eyed blond, Western lassie—And, by the way, they seem to be doing very nicely!!! . . . Clark, Durham, Kline, Parker, Wand, Lester and others, all have a "bigun" planned for the Fourth . . . Say, what is happening around this town the Fourth??—The nearest thing I know of is the Kyser dance on the Third . . . That should be big enough to last over the whole works though, don't you think? . . . John Gorman found sufficient reason in the statement, "Good luck, John" when starting out on his date recently, to become very much peeved at his good friend . . . The case of Harry Hall and Amy Curtis seems to be progressing very well. When Harry heard she was ill Monday he ran practically all of the way up Center street to see her—and in all of that hot sun too! . . . When in the world is "Pee-wee" Rees coming back to this town?? . . . Billy Hambaugh is among those who wants to know. . . It's not a secret, but everyone doesn't know that Frances "Red" Stewart is back in town and going to school . . . Who do you think she was with Sunday night??—You are wrong, 'cause it was a lad named Butler, better known as "Windy" or some such stormy name . . . Virginia Wilcoxson, friend of all the students, had her a new man Saturday night—By the way, Virginia, what ever became of Jack Dunn? . . . Durwood McGalliard has not been seen with a date since Mary Curd left town for a position down in Dixie . . . What is the matter boy, is it a case of "I'll be faithful"? . . . J. C. ## REV. HOUZE TALKS AT THIRD VESPER

Rev. Powell Presides At  
Meet In Western Stadium,  
Sunday Evening

The Rev. Dr. A. B. Houze, pastor of the First Christian Church, spoke on the subject, "Tomorrow's America" at the third of a series of eight community vesper services in Western Stadium Sunday evening at 7 o'clock.

The Rev. Dr. Paul Shell Powell, pastor of the State Street Methodist Church and presiding minister at the services, introduced the Rev. Dr. Houze as the dean of the local ministry.

In opening his sermon, the Rev. Dr. Houze said, "America is God's, both by right of discovery and right of creation, since the discovery of America took possession of the land in the name of God." He described the Golden Rule as the creed of America.

In discussing America of tomorrow, the minister said "If America of tomorrow is to stand, we must undergird the home, must be militant in the spirit of righteousness, and must become peace minded."

In discussing the whisky problem, the Rev. Dr. Houze said there are enough righteous people in Warren county to rise up and drive out the evils of whisky, but we have yet to find a man with courage enough to lead such a movement.

Loretta Young and Franchot Tone  
in "The Unguarded Hour"

Thursday and Friday

"It's like riding a bicycle, you never forget."

Smiling broadly, this was Loretta Young's first statement on her return to the screen after a year's absence with a severe illness, to co-star with Franchot Tone in Metro-Goldwyn-Mayer's "The Unguarded Hour."

"I needn't have stayed away so long," she said, "but I wanted to be sure I was perfectly well before beginning work again. It's grand to be back."

Sam Wood directed and Lawrence Weingarten produced the new picture. The cast includes such notables as Lewis Stone, Roland Young, Jessie Ralph and Dudley Digges.

Saturday Only  
"Speed"

No longer are the most interesting romances to be found along country lanes, beside shaded brooks, or in penthouse retreats atop the tallest skyscrapers.

Instead, at least one film director has found the roaring factories of the great industrial centers to be the most ideal settings for thrilling love affairs.

Edwin L. Marin is the young director who challenges the country lane as a setting for romance and who champions the throbbing monuments of industry.

Marin directed "Speed" for Metro-Goldwyn-Mayer, an exciting story of daring auto race pilots who daily risk their lives to prevent wholesale deaths in defective cars.

"The Farmer Takes A Wife"

Gill Melton, a newcomer to Hollywood, grew three inches overnight and won himself a job as "stand-in" for Henry Fonda, who plays opposite Janet Gaynor in the Fox Film production of "The Farmer Takes a wife."

Melton, who greatly resembles Fonda, wanted the job as "stand-in," but realized he was three inches too short. Acting quickly, Melton rushed to a shoemaker and had his footgear arranged so the needed inches were added to his stature.

"The Farmer Takes a Wife" was produced by Winfield Sheehan and directed by Victor Fleming.
